

FINANCIAL EDUCATION TRAINING PROGRAMME

Financial literacy program for school teachers enabling them to impart basic financial education in schools.

NATIONAL CENTRE FOR FINANCIAL EDUCATION

Creating a financially aware and empowered India

ABOUT US

National Centre for Financial Education is promoted by Indian financial sector regulatory bodies namely, Reserve Bank of India (RBI), Securities and Exchange Board of India (SEBI), Insurance Regulatory and Development Authority of India (IRDAI), and Pension Fund Regulatory and Development Authority (PFRDA), under the aegis of the Financial Stability and Development Council (FSDC), Ministry of Finance, Government of India. The main objective of NCFE is to promote financial education for enabling financial inclusion among all sections of the population across India.

VISION AND MISSION

VISION

To create a financially aware and empowered India.

MISSION

To undertake massive Financial Education campaign to help people manage money more effectively to achieve financial well being by accessing appropriate financial products and services through regulated entities with fair and transparent machinery for consumer protection and grievance redressal.

FINANCIAL LITERACY

Financial literacy, 'a combination of awareness, knowledge, skill, attitude and behavior necessary to make sound financial decisions and ultimately achieve individual financial well-being' is increasingly being recognized as an essential life skill.

As globalization and digital technologies made financial products more complex and also easily accessible, financial literacy has become one of the major challenges for countries around the world.

Financial literacy is as much about knowledge and skills as it is about behaviour and attitude. What better place to change the mindset about money of our future citizens than at schools? If our children do not have the basic financial skills, the poor financial decisions they will make later in life will have a lasting impact on their financial future.

India's National Strategy for Financial Education recommends that financial education should start as early as possible and be taught in schools for holistic development of our students.

WHAT IS FETP?

FETP is an initiative of the NCFE for providing unbiased personal financial education to school teachers across the country for improving their financial skills and enabling them to impart basic financial education in their schools.

After completion of the training, these teachers will be certified as “**Money Smart Teacher**” and would facilitate conducting financial education classes in schools and encourage students to obtain basic financial skills.

FETP MODULES

1. Introduction to Banking

Learn about various savings, borrowings and transactions related products and services.

2. Grow your money through Investments

There is a difference between savings and investment. Learn the basics of capital market products and services.

3. Protect your financial future

Introduction to insurance related products and services to manage your risk.

4. Retirement is never too far

Learn how important it is to plan for your retirement through pension related products and services.

CONTACT US

The programme is of approximately 4 hours duration. We encourage all schools to avail this opportunity.
